SIMULATION BASED LEARNING IN THE COLLEGE

CLINICAL SKILL MODELS

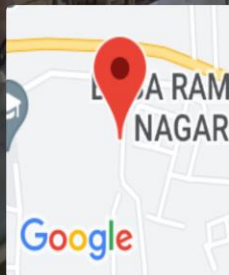

1. Phantom Heads to simulate human oral cavity.
2. Typhodont teeth for crown preparation and cavity preparation.
3. Mannequin for CPR practice.
4. Articulators to simulate TMJ.
5. Plaster Models of edentulous jaw.
6. Plaster models of dentulous jaw.
7. Human skull for anatomical structures

CLINICAL SKILL LABS

- 1- Pre Conservative Lab
- 2- Pre Prosthetic Lab
- 3- Preclinical Pedodontics lab
- 4- Preclinical Orthodontic Lab
- 5- Skill Lab For BLS
- 6- Anatomy Lab

TEACHING PROGRAMS CONDUCTED IN SKILL LABS

Pre- Prosthodontics Lab

1. Primary Impression on Cast Model
Edentulous
Dentulous
2. Fabrication of Complete Dentures on Ideal Casts model.
3. Fabrication of Removable Partial Dentures on Ideal Casts model.
4. Jaw relation simulation on articulator
5. Crown Preparation On Typhodont Teeth Or Extracted Human Teeth.
6. Cast Partial Dentures, Implant Supported Prosthesis, Maxillofacial Prosthesis on Models.

Pre Conservative Lab

1. Cavity Preparation on plaster tooth model.
2. Cavity preparation on Typhodont/extracted tooth model
3. Endodontics Treatment Simulation on Human Extracted Teeth.

Pre Clinical Orthodontics Lab

1. Wire Bending Exercises on Cast Models.
2. Bonding of Brackets on Typhodont Teeth.
3. Fabrication of Removable and fixed appliances on cast models.

Pre Clinical Pedodontics Lab

1. Endodontic Treatment Simulation on Extracted Primary Teeth
2. Preclinical operative Work on Typhodont Teeth
3. Fabrication of Space Maintainers for on cast Models.

Pre Clinical Oral Surgery

1. Wirings on Cast Model.
2. Suturing on Mackintosh Sheet ,
3. Splinting on Cast Models.
4. Technique of anesthesia in human skull.
5. CPR training in BLS skill Lab
